## About Our Beneficiary

### Hartford HealthCare Cancer Institute at Charlotte Hungerford Hospital

Cancer touches every family in some way. We have all walked alongside someone we love through a diagnosis, and we understand how profoundly important it is to receive exceptional care close to home.

Funds raised by the 2026 Golf Classic will support the purchase of a **Varian TrueBeam Linear Accelerator (LINAC)** and enhance Charlotte Hungerford Hospital's lifesaving **cancer patient programs**. The LINAC is a next-generation system capable of delivering faster, safer, and more accurate radiation therapy to patients with a wide range of cancers. This investment is more than a technological upgrade; it represents a promise to our shared community that they do not need to leave home to receive the most advanced and safest cancer care.

We understand that access to cancer treatment goes beyond medicine and technology; it's about ensuring care is truly reachable, affordable, and navigable for each patient. It also means providing support for those caring for a loved one at home. For the people of rural northwest Connecticut, our cancer patient programs are more than a convenience—they are a lifeline.

The Hartford HealthCare Cancer Institute at Charlotte Hungerford Hospital is home to an expert team of medical and radiation oncologists, surgeons, radiologists, pathologists, nurses, social workers, and researchers. Serving hundreds of patients annually, we provide the highest level of treatment and compassion close to home—so life during and after cancer continues to be rich, rewarding, and familiar.
